VARIANCE(S) MAY BE GRANTED IN AN INDIVIDUAL CASE IF IT CAN BE SHOWN THAT A LITERAL ENFORCEMENT OF AN ORDINANCE WILL RESULT IN AN UNNECESSARY HARDSHIP TO THE APPLICANT.

In order to determine that an unnecessary hardship might occur, the following questions must be completely answered.

- 1. Describe the extraordinary and exceptional conditions pertaining to this particular piece of property in question because of its size, shape, character, or topography that do not apply generally to other land in the vicinity:

2. Explain how the strict application of the provisions of this title to this particular piece of property would create an undue and unnecessary hardship so that the grant of the variance is necessary for the preservation and enjoyment of a property right and not merely to serve as a convenience to the applicant:

3. Describe how the special conditions and circumstances do not result from the actions of the applicant:

4. Explain how the benefits of granting the variance will be greater than any negative impacts on the development of the adjacent uses; and will further the purpose and intent of this ordinance and the Comprehensive Plan of the City of Arnoldsville.

5. Explain how the variance, if granted, will represent the minimum variance that will afford relief from the identified hardship and will represent the least deviation possible from the zoning regulation and from the comprehensive plan.

6. Explain how the variance does not permit a use of land, building or structure which is not permitted by right in the land use intensity district which the proposed development is located.

SUBMISSION OF MATERIALS:

All applications and materials for variance requests must be submitted to the Land Use Officer's staff. Complete applications for variances requiring a decision of the Appeals Board must be submitted before a hearing may be set.

6. Filing fee (see fee schedule).
7. Power of Attorney from property owner designating a specific individual to handle the request, if applicable;

REQUIREMENTS FOR PLAN:
